ABSTRACT

Data concerning the place of residence of students attending Maryland colleges during fall 1984 are presented. The statistical tables indicate campus enrollment patterns of residents of Maryland counties and Baltimore City, out-of-state students, and foreign students. For each county, data are provided on the number of students attending each Maryland campus, including a breakdown for new full-time freshmen, undergraduate students, graduate students, and professional students. The number of students from each county attending public two- and four-year colleges and private two- and four-year colleges are given, as are public total attendance and private total attendance. Enrollment percentages are also provided in separate tables for Maryland residents, residents of other states, and foreign students, with breakdowns by level of study. (SW)

This report provides information concerning the places of residence of students enrolled in Maryland institutions of higher education in fall, 1984. This information is for students of all races and both sexes combined. Separate reports by race and sex for 1982, 1983, and 1984 may be obtained by contacting the Research Division of the State Board for Higher Education.

The information for this report was obtained from the fall student data tape submissions of all public institutions, Johns Hopkins University, Loyola College, and Peabody Institute. The information from the remaining independent institutions was obtained from SBHE Form S-4, "Residence by County of Origin." In all cases the place of residence is defined as the permanent residence at the time of application to the campus. Student data for all but three institutions are included in this report: Ner Israel (enrollment - 336), St. Mary's Seminary and University (enrollment - 336), and Washington Theological Union (enrollment - 167).
